EDDRICK C. BUTLER

**WEB DEVELOPMENT & NETWORK ADMINISTATION |
PORTFOLIO: HTTPS://EDDRICKBUTLER98.GITHUB.IO
GITHUB: HTTPS://WWW.GITHUB.COM/EDDRICKBUTLER98**

OBJECTIVE

I am looking for a position as a web developer and/or network administrator for a software or internet company.

SKILLS

Prog. Languages: HTML, CSS3, JavaScript, jQuery

Operating Environments: Microsoft Windows, Apple macOS

Business Tools: Microsoft Office 365, Outlook, Word, PowerPoint

EXPERIENCE

FROGGER GAME • BASE CAMP CODING • OCT. 2016 – NOV. 2016

Goal: Build a game that enables a character to move from one frame to another

- Designed a scene using HTML, CSs, and JS to create an interesting user interface

- Tested the game and revised as needed when bugs were identified.

- Worked collaboratively with a team of three while discussing prior to the project, so that no errors are being made, no bugs are found, and everything works as followed.

TETRIS • BASE CAMP CODING • AUG. 2016 – SEPT. 2016

Goal: Create a Tetris game using Python.

- Tested to make sure the coordinates for the game were correct using the Atom Text Editor

- Designed and animated the blocks in the game using Python.

EXPERIENCE(CONTINUED)

MINESWEEPER • BASE CAMP CODING • JULY. 2016 – SEPT. 2016
Goal: Create a Minesweeper game using Python.

- Tested the code to ensure the program was prepared for presentation

- Proofread the code to spot any mistakes.
- Acted as Project Manager for the group from the beginning and end of Day 1.

RENTAL STORE FRONT (PYTHON) • BASE CAMP CODING • JAN. 2017 – FEB. 2017
Goal: Create a Python based renting program that allows the user to rent, return, and replace an album when purchased.

- Hard-tested code to check for any errors, mistakes, or misspelled words.

- Provided test cases to ensure the code was processed correctly.

EXPERIENCE(CONTINUED)

BASIC AND DYNAMIC WEB DEV. PROJECTS • BASE CAMP CODING • FEB. 2017 – MAR. 2017

Goal: Create a Web-based rental store front that only allows the user to rent an album and present the user with the total cost of the purchased album, depending on the number of items purchased.

- Hard-coded quantity information to match the price of albums with the given quantity

- Provided Bootstrap to make images and HTML elements responsive.

- Manifested Bootswatch themes into code to bring out the user's experience when interacting with the page.

RENTAL STORE FRONT(DJANGO)• BASE CAMP CODING • MAR. 2017 – APR. 2017

Goal: Create a Django app that gives the user the options to rent an album, update their inventory after being purchased, and add an album to the inventory.

- Watched YouTube video tutorials on Django to get a better understanding.
